

NOTICE OF PUBLIC COMMENT PERIOD

SAN DIEGO GAS & ELECTRIC COMPANY Draft Hazardous Waste Facility Permit Renewal San Diego, California

PUBLIC COMMENT PERIOD: June 1, 1007 to July 16, 2007

WHAT'S BEING PROPOSED?

The Department of Toxic Substances Control (DTSC) invites you to comment on a draft permit renewal for San Diego Gas & Electric Company, a hazardous waste storage facility, located at 6875 Consolidated Way in San Diego, California.

DTSC is the state agency responsible for regulating the generation, storage, treatment, and disposal of hazardous waste in California. If approved, the renewed permit would allow the facility to continue to store hazardous waste. The facility received a hazardous waste storage permit in July, 1991. An example of the types of wastes that San Diego Gas & Electric Company stores are: ink and adsorbents, fuel and water additives, paints, oil-contaminated rags, chromium treated water, solvents, and outdated motor vehicle grease. A complete list of waste that the facility stores is available in the San Diego Gas & Electric Company fact sheet and the permit renewal documents located in the repository listed below.

As part of the permit process, DTSC has performed a review of the proposed draft permit renewal as required by the California Environmental Quality Act (CEQA). Based on this review, DTSC has determined that the proposed draft permit will not have any significant effects on public health or the environment. DTSC proposes to issue a CEQA Negative Declaration in connection with this project.

The 45-day public comment period is from June 1, 1007 to July 16, 2007. Written comments must be postmarked or emailed by July 16, 2007 and sent to: Ms. Chia-Rin Yen, DTSC Project Manager, 1011 N. Grandview Avenue, Glendale, CA 91201-2205 or CYen@dtsc.ca.gov
